

Oh boy!

Poppy's Best Kazoos

YOU WILL NEED

- * toilet paper tubes
- * waxed paper
- * rubber bands
- * scissors
- * sharpened pencil

- * Use a pencil to make a small hole about two inches from one end of the cardboard tube.
- * Cut a square of waxed paper that's about an inch or two wider than the end of the tube.
- * Wrap the waxed paper tightly over the end of the tube where you made the hole. Hold it in place with a rubber band. (Make sure you don't cover the hole you made.) Trim off any excess waxed paper with scissors.

Decorate with markers or stickers or colored paper. Hum away into the open end of the tube and make your music!
